PERM KRAI

The Perm Krai is one of the 85 subjects of the Russian Federation, located in the Eastern part of the European Plain and on the Western slope of the Middle Ural Mountains.

There are numerous historical and picturesque attractions and towns in the Perm Krai: for example, Osa, Cherdyn, Nyrob, Ocher, Usolie, Solikamsk, Ilinsk, Kungur and others. There are more than 29 thousand rivers in the Perm Krai. The longest river is the Kama, it has a length of 1805 km. In addition, there are other beautiful rivers like the Usva, the Koiva, the Vishera, the Chusovaya, the Kolva ideal for river rafting.

The Perm Krai region is diverse in its landscape and culture. For example, The Kungur Ice Caves are known as one of the Seven Wonders of Russia, The Ordinskaya Underwater Cave is one of the longest gypsum underwater caves in the world and The Stone Town (Chertovo Gorodishche, Turtles) – landscape geomorphological natural monument.
PERM

Perm is the capital city of the Perm Krai region. It is a major administrative, industrial, scientific, and cultural center of the Perm Krai. Perm is located on the banks of the Kama River in the European part of Russia, near the Ural Mountains. The Kama is the main tributary of the Volga River and one of the deepest and most picturesque rivers in Russia. The Kama divides the city into two parts: the central and the right bank. The city stretches for 70 kilometers (43 mi) along the Kama river.

ABOUT THE UNIVERSITY

The Perm State Agro-Technological University is one of the oldest educational institutions in Russia specifically for agricultural studies. Graduates of the University have a wide range of knowledge pertaining to agriculture and other scientific spheres. We offer bachelor, master and doctoral degrees and have seven different faculties including a distance learning faculty.

The quality of education is dependent on the quality of the teaching staff. At the University, we have four hundred highly qualified professors, two hundred of which have received PhD's. Therefore, our graduates are in high demand in the Perm region and throughout Russia. At the University we participate in faculty and student exchanges. Our professors are invited to lecture in their specialties abroad while visiting professors often come from abroad to participate in and present seminars. Our students also engage in short internships internationally where they receive additional expertise in their respective field of study. This increases their exposure to international methods of agriculture as well as providing opportunities to practice their foreign language skills.

The University provides a balanced student life by offering students the option to develop their athletic abilities. We annually have intramural sports for students. Students come from all over the country to study at our University. On campus, we have dormitories and lounges for students to socialize after class.

Perm SATU has already contributed renowned scientists to the world. We will continue this legacy. Some of tomorrow's great scientists, leaders and experts that will shape our world, will be from Perm SATU.

OUR MISSION

INNOVATIVE DEVELOPMENT OF AGRARIAN EDUCATION AND SCIENCE
PROVIDING THE LABOUR MARKET WITH HIGHLY QUALIFIED SPECIALISTS ABLE TO MEET NATIONAL AND INTERNATIONAL STANDARDS

OUR VISION

PERM STATE AGRO-TECHNOLOGICAL UNIVERSITY IS ONE OF THE LEADING AND DIVERSIFIED CENTRES OF AGRARIAN EDUCATION AND SCIENCE IN RUSSIA

OUR VALUES
TRADITIONS
PROFESSIONALISM
PERFECTION
STYLE
CREATIVITY
FACULTIES

Faculty of Agricultural Technologies and Forestry
Departments:
- General Agriculture and Plant Protection
- Botany and Plant Physiology
- Foreign Languages
- Forestry and Landscape Architecture
- Horticulture and Processing of Agricultural Production Technology
- Plant Production

Faculty of Veterinary Medicine and Animal Science
Departments:
- Biology and Veterinary Hygiene
- Infectious Diseases
- Animal Breeding
- Internal Noncontagious Diseases, Surgery and Obstetrics
- Physical Education

Faculty of Land Management, Cadastre and Construction Technologies
Departments:
- Surveying and Mapping
- History and Philosophy
- Land Management
- Cadastre of Real Estate and Natural Resources
- Construction Technologies

Engineering Faculty
Departments:
- Machine Parts
- Health Safety
- Higher Mathematics and Physics
- Agricultural Machinery and Equipment
- Technical Service and Machinery Repair

Faculty of Soil Science, Agrochemistry, Ecology and Commodity Research
Departments:
- Agrochemistry
- Commodity Research and Examination of Goods
- Ecology
- General Chemistry
- Soil Science

Faculty of Economics and Information Technology
Departments:
- Accounting and Finance
- Economic Theory and World Economy
- Management
- Organisation of Agricultural Production
- Information Technologies and Software Engineering
- Information Systems and Telecommunications

Faculty of Distant Learning
PERM STATE AGRO-TECHNOLOGICAL UNIVERSITY OFFERS:

UNDERGRADUATE STUDY (BACHELOR)
SPECIALIST STUDY
GRADUATE STUDY (MASTER)
POSTGRADUATE STUDY (PhD)

MAJORS

Undergraduate Majors (Bachelor, 4 years)

- Ecology and Natural Resources Management
- Biology
- Construction
- Information Systems and Technologies
- Applied Computer Science
- Software Engineering
- Plant Source Food
- Technosphere Safety
- Land Management and Cadastres
- Operation of Transport and Technological Machines and Complexes
- Forestry
- Technology of Logging and Timber Production
- Agro-Chemistry and Agricultural Soil Science
- Agronomy
- Horticulture
- Agro-Engineering
- Technology of Agricultural Product Production and Processing
- Landscape Architecture
- Veterinary and Sanitary Examination
- Animal Husbandry
- Economics
- Management
- Commodity Research

Undergraduate Majors (Specialist, 5 years)

- Veterinary Medicine

MAJORS

Post Graduate, Masters (2 years)

- Biology
- Construction
- Applied Computer Science
- Animal Source Food
- Land Management and Quantity Surveying
- Operation of Transport and Technological Machines and Complexes
- Forestry
- Agricultural Chemistry and Soil Science
- Agronomy
- Horticulture
- Agricultural Engineering (Mechanization)
- Landscape Architecture
- Veterinary and Sanitary Examination
- Animal Husbandry
- Economics
- Business Management
- Commodity Research

Postgraduate Doctorate, PhD (3 years)

- Biological Science
- Soil Science
- Parasitology
- Agriculture
- General Agriculture and Crop Science
- Agricultural Chemistry
- Technologies, Mechanization and Power-Generating Equipment in Agriculture, Forestry and Fishery
- Agricultural Technologies and Mechanization
- Veterinary and Animal Science
- Animal Breeding and Genetics
- Fodder Production, Animal Feed Production and Fodder Technologies
- Diagnostics of Animal Diseases, Therapy, Pathology, Oncology and Morphology
- Veterinary Microbiology, Virology, Epizootiology, Mycology with Myco-toxicology and Immunology
- Economics
- Economics and National Economic Management
1. Development of adaptive farming technologies and production of highly productive agro-phytocenoses of field crops in the Ural district
2. Development of field crop protection systems adapted to the conditions of the Ural district
3. Methods of lawns and landscape formation
4. Development of adaptive resource-saving technologies for cultivating cereals in the Middle Ural district
5. Development of adaptive resource-saving technologies for cultivating fodder and industrial crops in the Middle Ural district
6. Development of resource-saving technologies for cultivating early-opening potato varieties in the Middle Ural district
7. Development of varietal field management of green crops with the use of intensification techniques in the Middle Ural district
8. Synthesis of new nitrogen-containing fine chemicals and their use in agriculture as pesticides, growth regulators and pharmaceuticals
9. Agrobiological aspects of fertilizers and ameliorant application for agricultural crops in the Ural district
10. Protection of land resources, genesis, properties and techniques for optimizing soil fertility in the Perm Region
11. Current state and ways to improve the livestock breeding in the Perm Region
12. Development of ecologically safe, resource-saving technologies for the production of livestock products
13. Development of pathomorphological criteria for differential diagnostics of infectious, invasive and oncology diseases of animals in the Perm Region
14. Development of measures for conducting veterinary and sanitary expertise, veterinary sanitation, state veterinary control and supervision aimed to the production of safe products in veterinary and sanitary terms
15. Immunomorphological and biochemical assessment of animals’ state under the influence of external agents and methods of correction in the Perm Region
16. Pathogenesis, prevention and treatment of farm animal diseases
17. Creation of highly effective and safe technologies and technical means for the seed production of crops, concentrated fodder and livestock products in the Western and Middle Ural regions of Russia
18. Development and research of regenerative processes and increase of durability of agricultural engineering aspects
19. Improvement of the land management theory and methodology in conditions of ensuring food security
20. Agriculture and agricultural activity as a social phenomenon
21. Improvement of economic relations in the market system of agricultural industrial complex management forms of the Perm Region
22. Development of modern methods for detecting latent economic crime in the organizations’ activities from the perspective of ensuring economic security of agricultural industrial complex
23. Features of resource potential formation in the conditions of innovative development of the agro-industrial complex of the Perm Region
24. Improvement of the import substitution mechanism of agricultural products in an unstable economy
25. Employment of qualified agricultural personnel in the regional agro-industrial complex system
26. Research for improving business mechanism in the material and social sphere of the agro-industrial complex
27. Food security: a regional aspect
28. Accounting and analytical support of the management process of commercial organizations
CHOOSE YOUR PROFESSION

Perm SATU will help you to get the job of your dreams! There is a variety of interesting professions which our graduates succeed in. They work all over the country. Among our students are heads of banks and financial institutions, scientists, representatives of ministries and departments, heads of municipalities to name a few. The University interacts not only with agricultural and processing enterprises but also gives an opportunity for students to connect with financial institutions, large commercial networks, oil and gas mining and machine-building enterprises.

ADMISSION REQUIREMENTS
EDUCATIONAL DOCUMENTS
All documents must be translated into Russian, certified by a Russian notary and sent to the International Relations Center directly.

Submission of documents and entrance exams via University portal portal.psaa.ru
- Original education certificate of Higher Secondary School level passed
- Original academic transcript of subjects passed with marks obtained

HEALTH DOCUMENTS
All required medical tests are available Perm, Russia
- Medical health certificate: 086
  - HIV absence test
  - Chest x-ray
  - Vaccination card

TRAVEL DOCUMENTS
All documents must be translated into Russian and certified by a Russian notary
- Valid passport and a copy thereof
- 8 colour, matt passport photos (3cm x 4cm)
- Migration card issued by customs

ADMISSION TESTS
- Russian Language
- Mathematics
- Field orientated (Biology, Geography, Physics or Social Sciences)

TUITION FEE
- Approx. $2500 per year (including accommodation)

ACCOMMODATION
- 4 comfortable hostels with all facilities

TRAVEL AND DESTINATION
- Perm International Airport (PEE) "Bolshoe Savino"
STUDENT LIFE AND STUDY

The scientific research conducted at the University requires not only rigorous academics but also creativity. What we analyze under the microscope has implications for the whole world. We push our students to excel and cultivate their individual talents.

Student life is exciting and vibrant here at our University. Filled with various interesting events such as photo exhibitions, dance competitions, theatrical performances, choir evenings and many more, there is never a dull moment. We have amazing student teams such as in theater, "Colored Dreams", in the dance theater, "Ardis", the vocal studio "Improvisation", our folk band, "Ognetsvet", drama theater, "Our Circle" and lastly the dance band "Elizabeth". Our students regularly participate and win prizes at regional festivals among competing Universities.

STUDENTS LIFE AND STUDY

Sports are also very popular at the University. Our teams consist of: basketball, volleyball, football (male and female), Arm Wrestling, Weight-lifting, Greco-Roman wrestling, athletics, ski racing, table tennis, powerlifting, sambo, grappling and chess.

There are different student teams. The members of student teams not only work but also take part in cultural events of Perm, Perm Krai and the Russian Federation. Working in student teams make them stronger and more confident individuals, develops independence and encourages professional education.
INTERNATIONAL RELATIONS CENTER

International relations center represents the Perm State Agro-
Technological University in the international arena where we
strive to improve intercultural relations and understanding.
We pride ourselves on educating global citizens prepared for
life and work on an international stage. At the heart of the
University is international cooperation. This provides an open
forum and benchmark to ensure world class education
relevant with current academic trends are provided to
students.

The University's international activities are aimed to integrate
and enhance agrarian higher education into the global
academic and scientific community while enhancing the
status of agrarian Universities in the Russian Federation.
This is achieved within a framework of understanding and
cooperation leading to
- training academic and professional staff for foreign
countries
- joint research
- practical seminars and conferences
- exchange programs for faculty, administrative staff and
students.
